2. During my tour to the UT of Andaman and Nicobar Islands, I met the following (and various other) officers of the UT Administration and discussed issues concerning the tribals.

1. Shri Anindo Majumdar, Chief Secretary
2. Shri Rajesh Mallick, DG of Police
3. Shri D.M. Shukla, Principal Secretary, Tribal Welfare Deptt.,

3. As per the advice of the Administration, I did not visit the tribal settlements as they felt it could be a violation of the Jarawa Policy of Andaman Islands dated December 21, 2004 prohibiting individual visits to tribal settlements. However, for the
future. I feel a special dispensation should be sought for Members of the National Commission for Scheduled Tribes and the Secretary as a special case to enable them to understand the issues involved with development of tribes in Andaman & Nicobar.

4 The following points emerged after the discussion:

**Nicobar:**

(i) The Nicobarese are more developed because of education and many hold Government jobs.

(ii) After the trauma of Tsunami, the Nicobarese people have become quite rudderless. They are also not in the list of PVTGs. It is important to safeguard the interests of Nicobarese because Nicobar is equally important from the national security angle. Hence there is need to provide for infrastructure support to them, including platforms, jetties, boats, life-jackets, etc.

(iii) Following other things can be done for them:

(a) Promotion of their tradition craft-making and ensuring its appropriate marketing so that they can earn their livelihood. In this regard the following type of organisations can be considered for tie-up:

- Fab India.
- North Eastern Handicrafts and Handloom Corporation (NEHHC)
- TRIFED.

(b) Promote their traditional cloth-making skills.

(c) Promote their crafts like boat-making, bamboo-crafts and other products, etc.

(iv) They have also a great talent for sports. Therefore, in particular their aptitude and competence for football etc. should be promoted.
Andaman:

1. The first thing that needs to be done is that a policy for dealing with tribes in Andaman Islands need to be determined and finalised. As of today, there are conflicting viewpoints - whether active interest should be taken to interact with the tribes or not (?). Should they be proactively developed or not (?) For instance, the Supreme Court has mandated that there should be no interaction from administration side directly with the Jarawas, etc. If anybody is to visit Jarawas territory, the permission of Supreme Court is required. The Sentinelese in any case remain hidden and there is no contact with them. Hence, the above question assumes importance.

2. There are also some illegally made films about Jarawas, which have been loaded on Internet portal www.youtube.com which portray them in a poor light in the following manner:

   - They are made to appear silly and foolish.
   - They appear easily gullible and exploitable – this will encourage others to exploit them.
   - They are shown semi-naked which essentially outrages their modesty. Hence it is proposed that NCST should direct Youtube to immediately remove all videos about Jarawas with immediate effect.

3. It is also proposed to hold a workshop in Delhi or Port Blair inviting top sociologists and anthropologists of the country to deliberate exclusively on our approach in dealing with the Andaman and Nicobar tribes. The names of Shri Vishwajeet Pandya, who has done a Ph.D. on Jarawas, and experts like Portman and Cipriani were mentioned for being invited.

III. Protection of Health Status

(a) Periodic health survey of the Jarawa community will be organized through a Standing Team of health professionals. IV. Regulation of traffic on Andaman Trunk Road

(d) Maintenance of the Andaman Trunk Road will be carried out by a mobile maintenance team bringing men, machine and materials from Ferrargunj / Jiribam and carry out the job only during day time.

(e) The tourist traffic on Andaman Trunk Road will be strictly monitored to ensure that there is no interaction between the Jarawas and the tourists.
